

CAREER OBJECTIVE

Seeking a challenging role where I can combine my passion for serving the nation as a defense aspirant in the Indian Air Force with my technical expertise as a design engineer. Eager to contribute to national defense through innovative design solutions, ensuring both operational excellence and engineering efficiency while upholding the highest standards of discipline, integrity, and teamwork.

EDUCATION

Sapthagiri College of Engineering

Bachelor of Engineering (ME), GPA: 8.7

Bengaluru, India

Dec 2022-April 2026

Kendriya Vidyalaya No.1 AFS Samba

XII, Percentage: 68%

Belagavi, India

April 2021-April 2022

Kendriya Vidyalaya No.1 AFS Samba

X, Percentage:76%

Belagavi, India

April 2019-April 2020

SKILLS SUMMARY

- **Tools:** AutoCAD, Fusion 360, Solid Edge, SolidWorks
- **Practical Skills:** Forging, CAED, 3D-Modelling, Lathe Operations, CNC Milling, Molding
- **Soft Skills:** Stakeholder Management, People Management, Excellent Communication

WORK EXPERIENCE

Leading Flight Cadet | National Cadet Corps | [Link](#)

Oct 2023-Feb 2026

- Gained hands-on experience in military drills, weapon handling, and precision firing(.22 and skeet shooting), enhancing discipline and focus as an NCC cadet.
- Actively participated in aero modeling and microlite flying, developing technical skills and a strong foundation in aviation.
- Participated in camps organised by NCC such as Pre-Vayu Sainik Camp, Special National Intergration Camp and Combined Annual Training Camp.
- Learnt various technical subjects such as Standard Operating Procedure of Zen Air CH 701 STOL aircraft, airmanship, principles of flight.

PROJECTS

Rope Making using Plastic Bottles

July 2024

- Developed a sustainable rope-making project by repurposing plastic bottles into durable ropes.
- Designed a simple yet effective mechanism to cut plastic bottles into continuous strips for rope production.
- Focused on eco-friendly practices to reduce plastic waste and promote recycling.
- Successfully created strong, versatile ropes suitable for various applications from waste materials.

CERTIFICATES

Innovation and Design Clinic | [Certificate](#)

April-2023

- Presented our project regarding Metro Safety Project at **Central Manufacturing Technology Institute(CMTI)**, Bengaluru.

SolidWorks Workshop | [Certificate](#)

Nov-2023

- Gained a hands on experience on SolidWorks and learnt how to use and implement it for 3D-Modelling.

Pre-Vayu Sainik Camp | [Certificate](#)

Aug-2024

- Participated in the Pre-Vayu Sainik Camp-I, organised by 1 Karnataka Air Sqn NCC and ranked 33rd among 200+ candidates and was a part of Drill and Tent Pitching team.

Combined Annual Training Camp | [Certificate](#)

Sep-2024

- Managed a school of 50+ students for 10 days, taught them discipline, drills, regimentation qualities, and was in Guard of Honour and CATC Drill Contingent team out of 700+ cadets.
